“ My little brother, words cannot describe my pain of losing you. I miss you terribly. I'll keep you in my heart forever and I'll always remember our crazy childhood growing up. Being your sister was one of the greatest gifts in my life. I know you are up in heaven watching over us now. I will see you again.
Love, your big sis!

Gordo this is the hardest thing I have to write. I only got 1 older brother, and now your gone. I will always remember those summers on South 5th street shooting hoops in a trash can or dumping water with a 5 gallon bucket. It wasn't even 24 hours after you were gone before I started missing you. I have been talking to you everyday morning noon and night now telling good morning or goodnight. You were my older brother now and forever you will always be in heart bro. Football season this year will not be the same without you. Love you Gordo love you so much bro. We will see each other again. Love your little bro
